

Divide & Conquer!

GOOSE EGGTM

FOR DIVISION & FACTORING

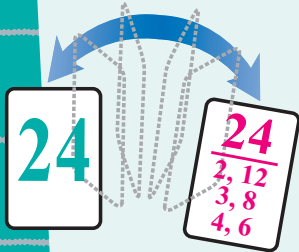

Get Ready to Divide and Conquer!

We've made learning division and factoring FUN!

THREE levels of play:

- 1 to learn division,
- 2 to enhance division skills, and
- 3 to work with factor families.

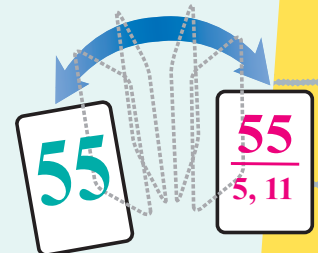

You can even use the chips as mini flash cards for self testing!

With a simple roll of the dice, players seek out numbers they can divide into and chips to conquer.

Everyone's out for themselves, so nobody's pile of chips is ever safe... stimulating lots of interaction.

Roll any number 1 - 9 to divide and conquer; roll doubles and it's twice the FUN.

Watch out... if you roll GOOSE EGGS, you can lose your turn, your chips and even the game!

Teachers...
This is super for the classroom!

For 3 to 6 players

Contents: 60 Plastic Chips
3 Ten-Sided Jumbo Dice

Rockton, IL 61072 U.S.A.
